## 12% Tranquil Feed

### Description: Reg No VI 7028

Equi-Feeds Tranquil feed is a **maize free**, low grain feed that maximizes show condition by using energy sources with relatively high oil content for those tense horses that become hyperactive on high grain feeds. In equine diets containing high levels of grain, starch not digested in the small intestine passes to the caecum where it ferments and lowers the pH (acidity). In diets with grain content of between 40-60% the risk of dietary upsets includes colic, diarrhoea, laminitis, tying up and stable vices.

#### Suitable for:

- Any tense horse that cannot mentally cope if fed the traditional high grain feeds without becoming hyperactive
- Ponies and horses in moderate to heavy work
- Ideal for endurance horses and ponies
- Polo, polocrosse, eventers, hunters, show jumpers
- Marathon driving, gymkhana
- Horses that have a problem keeping condition

#### Features and Benefits:

- **Maize free**
- Low carbohydrate ration for horses and ponies that tend to become hyperactive when receiving maize
- Palatable
- Contains calcium, phosphorous, magnesium, copper, zinc, manganese and selenium for strong bones and joints
- Contains biotin, zinc, copper methionine, choline and calcium for hoof growth
- Fully fortified with minerals and vitamins
- Contains sunflower seeds, sweet lupins and soya

#### Feed Composition:

	Min (g/kg)	Max (g/kg)
<b>Protein</b>	120	
<b>Fibre</b>	100	250
<b>Moisture</b>		140
<b>Fat</b>	25	
<b>Phosphorous</b>	4	
<b>Ca:P</b>	1,6 : 1,0 to 2,0 : 1,0	

## 10% Conditioner Feed

### Description: Reg No VI 7027

Equi-Feeds Conditioner feed is a low protein feed with a relatively higher energy content to keep up the conditioning of an adult horse, especially when receiving

high protein roughage sources such as lucerne or certain pastures. Adult horses have higher energy than protein requirements to maintain their performance and condition.

#### Suitable for:

- Adult horses fed high protein roughage
- Horses in moderate work
- Ponies in moderate to heavy work
- Endurance horses

#### Features and Benefits:

- High energy formulation
- Palatable feed
- Contains calcium, phosphorous, magnesium, copper, zinc, manganese and selenium for strong bones and joints
- Fortified with vitamins and minerals

#### Feed Composition:

	Min (g/kg)	Max (g/kg)
<b>Protein</b>	100	
<b>Fibre</b>		120
<b>Moisture</b>		140
<b>Fat</b>	25	
<b>Phosphorous</b>	3	
<b>Ca:P</b>	1,2 : 1,0 to 2,0 : 1,0	

## 12% Show Feed Description:

### Reg No VI 7030
