

## MAINTENANCE FEED FOR COMPETITION AND PLEASURE

Economical feeds that are high in fibre and low in energy, ideal for horses and ponies at rest or in light work. These appetizing blends of natural ingredients include fibre sources for a non heating energy.

Extra oil supports healthy skin and promotes a glossy coat fully balanced with vitamins and minerals for overall health and well being.

Ideal feed for horses that require minimum concentrates to maintain condition whether competing or hacking.

### Ingredients Include:

Lucerne, oats, roasted maize, cooked barley, wheaten bran, soya bean oil cake, sunflower oil cake, canola oil cake, molasses meal, liquid sugar cane molasses, salt, feed lime, mono-calcium phosphate, vitamins A, D, E, K, B1, B2, B6, B12, folic acid, niacin, pantothenic acid, biotin, magnesium, manganese, iron, zinc, copper, cobalt, iodine, selenium, organic selenium, potassium carbonate, lysine and methionine.

### Feeding Instructions:

	Moderate Work	Hard Work
<b>Pony (250kg)</b>	2-3kg	3-4kg
<b>Horse (450kg)</b>	3-4kg	4-6kg
<b>Large Horse (600kg)</b>	4-5kg	5-6kg

- The above mentioned feeding instructions are guidelines and it is recommended to consult with our Equine Nutritionist for more accurate feeding recommendations for your horse.
- Feed ad lib, a good quality roughage.

### Storage:

- Store feed on pallets in a rodent free, cool, dry area.
- Equine feeds are not to be stored with feed types of any other species!

## 12% Maintenance Feed

### Description: Reg No VI 7035

Equi-Feeds Maintenance Feed is a no fuss, economical, maintenance feed suitable for most breeds of ponies and horses in a light to moderate work regime.

#### Suitable for:

- Hacks
- Ponies in light to moderate work
- Horses in light work
- Novice dressage, showing, novice show jumping
- Leisure driving

#### Features and Benefits:

- Tried and tested dependable diet
- Palatable feed
- Contains calcium, phosphorus, magnesium, copper, zinc, manganese and selenium for strong bones and joints
- Contains biotin, zinc, copper, methionine, choline, and calcium for hoof growth
- Fortified with vitamins and minerals

#### Feed Composition:

	Min (g/kg)	Max (g/kg)
Protein	120	
Fibre	100	250
Moisture		120
Fat	25	
Phosphorous	3	
Ca:P	1,2 : 1,0 to 2,0 : 1,0	

## 10% Cool Feed Description: Reg No VI 7034

Equi-Feeds cool feed is an excellent all season ration for horses and ponies and is **maize free**. It is an economical feed with low energy and protein, with a relatively high fibre content. Hay and / or grass are often not of high enough nutritional value to provide a horse with a balanced diet. The Cool Meal or Cubes provides an excellent source of nutrients, while keeping your horse healthy and happy.

## Suitable for:

- Ponies in light to moderate work
- Horses in light work
- Horses and ponies that tend to become overweight, that react adversely to a high energy ration, or at rest or recovering from injury
- Not recommended for thoroughbreds due to low energy content

#### Features and Benefits:

- **Maize free** ration for horses and ponies that tend to become hyperactive when receiving maize
- A low energy formulation to prevent hyperactive behaviour
- Palatable feed with relatively high fibre level
- Contains calcium, phosphorus, magnesium, copper, zinc, manganese and selenium for strong bones and joints
- Contains biotin, zinc, copper, methionine, choline and calcium for hoof growth
- Fortified with vitamins and minerals

#### Feed Composition:

	Min (g/kg)	Max (g/kg)
Protein	100	
Fibre	100	250
Moisture		140
Fat	25	
Phosphorous	3	
Ca:P	1,2 : 1,0 to 2,0 : 1,0	

## 12% Warmblood Feed

### Description: Reg No VI 4290

Equi-Feeds Warmblood feed is a low energy **maize free** feed containing higher trace minerals and vitamins. This product contains oats but is considered a non-heating feed. This product is ideal for warmbloods, ponies and non-thoroughbreds that receive low quantities of concentrates.

#### Suitable for:

- Warmbloods
- Any horse or breed where the individual can only receive a limited quantity of concentrates
- Ponies and horses in light to moderate work

- South African indigenous breeds e.g. Boerperd, Friesperd and Percheron
- Novice dressage, showing, show jumping, driving
- Hacks
- Not recommended for thoroughbreds due to the low energy

#### Features and Benefits:

- **Maize free** ration for horses and ponies that tend to become hyperactive when receiving maize
- Palatable feed
- Contains calcium, phosphorus, magnesium, copper, zinc, manganese and selenium for strong bones and joints
- Contains biotin, zinc, copper, methionine, choline and calcium for hoof growth
- Fortified with vitamins and minerals

#### Feed Composition:

	Min (g/kg)	Max (g/kg)
Protein	120	
Fibre	60	200
Moisture		120
Fat	25	
Phosphorous	4	
Ca:P	1,6 : 1,0 to 2,0 : 1,0	

## 13% Golden Years Diet

### Description: Reg No VI 8575

Equi-Feeds Golden Years is suitable for mature horses. The softer mini pellet is easy to chew and enhances digestibility. It contains various additives to control gut pH and sustain healthy colonies of micro organisms in the hind gut.

#### Suitable for:

- Mature horses

#### Features and Benefits:

- Soft mini pellet
- Fortified with Vitamins and Minerals
- Additional pre-biotic yeast and digestive enzymes added to help with digestion
- Energy mix of maize, oats, soya and lupins
